

SMART INDIA HACKATHON 2024

FitMitra

- Problem Statement ID - 1599
- Problem Statement Title - Student Innovation.
- Theme- Fitness & Sports
- PS Category- Software
- Team ID-
- Team Name- FitFusion

The central idea of **FitMitra** is to encourage **Long-Term, Sustainable Fitness Habits** through a combination of **Personalized Tasks, Social Engagement, & Gamification.**

Problem Addressed:

- Simplifies fitness by integrating it into daily life.
- Promoting Mediterranean Lifestyle among users.

Proposed Solution

- Key Features: Daily Streaks & Challenges, Leaderboards, Personalized goals.
- Core Concept: Inculcate daily habits, and real-life rewards to promote long-term fitness.

Innovation

- Blend of habit formation, social accountability, and gamification, with redeemable rewards

Fitness App User Flow

Data Collection

Task Tracking

User Engagement

Feasibility:

- Engagement with Streaks, leaderboards, and rewards completing simple, adaptable daily tasks.
- **Combats obesity**, sedentary lifestyles and **social interaction**, Reduces chronic disease risks.

Challenges:

- **User Retention:** Why will users continue using the app long-term?
- **Task Motivation:** What will motivate users to perform the tasks regularly?
- **App Utility:** What features make the app indispensable for users?

Strategies:

- Personalized goals for each user and with **healthy competition**.
- **Social Engagement & Scalability** with **Streaks, leaderboards, reward**, Simple adaptable daily tasks..

IMPACT AND BENEFITS

Impact:

- Boosts healthy habits through community support and rewards system.
- Integrates fitness seamlessly into daily life, enhancing overall well-being.

Benefits:

- **Social Impact:** Encourages healthier lifestyles through community-driven motivation.
- **Economic Impact:** Real-life rewards incentivize continuous use and engagement.
- **Personal Impact:** Simplifies fitness integration into daily routines, promoting overall well-being.
