

TITLE PAGE

- **Problem Statement ID – 1664**
- **Problem Statement Title-** Develop Software Solutions to Enhance Educational Infrastructure and Connectivity in Rural Areas
- **Theme-** Miscellaneous
- **PS Category- Software**
- **Team ID-**
- **Team Name (Registered on portal)-** DevWise

**Proposed Solution:**

- Develop a comprehensive **digital platform** with **three user logins**: student, teacher, and parent, focusing on improving rural education through technology.
- Features include **personalised learning**, **parental guidance** on home education, **teacher training** modules, and community engagement tools.
- **Data Analytics & Resource Management:**
 - **Performance Analytics:** Integration of a comprehensive **data tracking system** linking past academic records with current performance, identifies trends, and helps customise learning strategies.
 - **Infrastructure Optimisation:** Digital inventory for resource allocation, minimising wastage and promoting resource sharing across schools.
 - **AI for Planning:** Data-driven infrastructure planning and resource management, improving efficiency.

How it Addresses the Problem:

- **Student Portal:** Provides access to tailored **educational content**, interactive lessons, and **doubt-solving sections**, enhancing learning in low-resource environments, low internet
- **Teacher Portal:** Offers professional development resources and collaborative tools, **improving teaching quality** in rural areas.
- **Parent Portal:** Connects parents and students with a unique code, offering guidance on supporting children's education and skill **development at home**.

Innovation and Uniqueness:

- **AI-driven personalised learning** experiences tailored to individual needs.
- **Community sections** for fostering interaction and support among students, teachers, and parents.
- **AI-integrated attendance system** for teachers.
- Educational **Resource Management** System and Data Analytics for Infrastructure Planning.
- **Live classes** and recording available for future references.
- Using **Web3**, protecting the data of users and content of our website.
- **Anonymous Feedback/Complaint system** for students.

Optimisation

• Potential Impact on the Target Audience:

- Improved educational outcomes and access to quality education for rural students.
- Empowerment of teachers through continuous professional development.
- Enhanced parental involvement in the educational process, fostering a supportive home environment.

Rural Education Transformation

• Benefits of the Solution:

- **Social:** Bridges the urban-rural education gap, promotes inclusive education.
- **Economic:** Prepares students for better job opportunities, enhances community growth.
- **Environmental:** Reduces paper usage with digital learning materials.

Solution Benefits

Condition of Rural Education in India

- **ASER Report 2022**
Highlights low literacy and numeracy skills in rural India.
