

SMART INDIA HACKATHON 2024

TITLE PAGE

- **Problem Statement ID – 1633**
- **Problem Statement Title- Intelligent platform to Interconnect Alumni and Student for Technical Education Department, Govt. of Rajasthan**
- **Theme- Smart Education**
- **PS Category- Software**
- **Team ID- C_4**
- **Team Name (Registered on portal)- Tech_Busters**

PROPOSED SOLUTION

A website that connects students with alumni, supported by AI chatbots. These chatbots recommend personalized career paths based on alumni success stories, guiding students to follow proven steps toward achieving their professional goals efficiently.

- ? **INNOVATION AND UNIQUENESS** :
- 1. AI-driven recommendations offer students a tailored roadmap of required skills, based on alumni career paths.
 - 2. A point-based system rewards students for completing tasks, contributing to a ranking system for motivation.
 - 3. Alumni benefit by expanding their network and earning transferable wallet money for their mentorship contributions.

CENTRALIZED ALUMNI DATABASE

STRUCTURED MENTORSHIP

Collaboration & Career Support

ALUMNI ENGAGEMENT

AI-POWERED SUGGESTIONS

01 Frontend

HTML , CSS , Javascript

02 Frameworks

React.js for the front-end,,

03 Backend

Nodejs, MongoDB

04 AI/ML

Algorithms for matchmaking based on career paths and interests.

05 Blockchain

To prevent fraudulent profiles and ensure secure authentication.

06 Chatbot

AI-driven chatbot for student assistance

01
